Sequence 40, Application US/09912935
Patent No. 6673904
GENERAL INFORMATION:
GENERAL INFORMATION:
TITLE OF INVENTION: METHODS AND MATERIALS RELATING TO STEM CELL GROWTH FACTOR-LIKE
TITLE OF INVENTION: POLYPEPTIDES AND POLYNUCLEOTIDES
FILE REFERENCE: 32066/37488
CURRENT APPLICATION NUMBER: US/09/912,935
FILE REPRESENCE: 2001-07-24
FRIOR APPLICATION NUMBER: PCT/US00/35260
FRIOR PILING DATE: 2000-12-23
NUMBER OF SEQ ID NOS: 53
SOFTWARE: Patentin version 3.0
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      GENERAL INFORMATION:

APPLICANT: Nishikawa, Mitsuo et al.

TITLE OF INVENTION: METHODS AND MATERIALS RELATING TO STEM CELL GROWTH FACTOR-LIKE TITLE OF INVENTION: POLYPEPTIDES AND POLYNUCLEOTIDES

Patent No. 6673904

GENERAL INFORMATION:

APPLICANT: NISHIKAWA, MITBUO et al.

TITLE OF INVENTION: METHODS AND MATRIALS RELATING TO STEM CELL GROWTH FACTOR-LIKE

TITLE OF INVENTION: POLYPEPTIDES AND POLYNUCLEOTIDES

FILE REFERENCE: 32066/37483

CURRENT APPLICATION NUMBER: US/09/912,935

CURRENT FILING DATE: 2010-07-24

PRIOR FILING DATE: 2010-07-24

NUMBER OF SEQ ID NOS: 53

SOFTWARE: Patentin version 3.0

SEQ ID NO 3.53

Patent No. 6673904

GENERAL INFORMATION:
FRIED OF INVENTION: METHODS AND MATERIALS RELATING TO STEM CELL GROWTH FACTOR-LIKE

TITLE OF INVENTION: POLYPEPTIDES AND POLYNUCLEOTIDES

FILE REFERENCE: 32066/37483

CURRENT APPLICATION NUMBER: US/09/912,935

CURRENT FILING DATE: 2010-07-24

PRIOR FILING DATE: 2000-12-23

PRIOR FILING DATE: 2000-12-23
                                                                                                                                                                                                                                                                                                                                                                             ö
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       ö

GENERAL INFORMATION:

TITLE OF INVENTION: METHODS AND MATERIALS RELATING TO STEM CELL GROWTH FACTOR-LIKE TITLE OF INVENTION: POLYPEPTIDES AND POLYNUCLEOTIDES

TITLE OF INVENTION: POLYPEPTIDES AND POLYNUCLEOTIDES

CURRENT APPLICATION NUMBER: US/09/912,935

CURRENT FILING DATE: 2001-07-24

PRIOR APPLICATION NUMBER: PCT/US00/35260

PRIOR APPLICATION NUMBER: PCT/US00/35260

RECO ID NOS: 53

SOFTWARE: Patentin version 3.0

SEQ ID NO 38

LENGTH: 530
